

We are proud to offer this innovative, unique line of premium caskets. All styles of pet caskets we offer can be used as a casket/vault combination.

The "Traditional Pet Casket" has been producing a quality product since 1966. They are vacuum formed out of high-impact styrene plastic. They are available in eight sizes and 21 styles.

All units are constructed of strong, High-Impact styrene. The design and special sealant restrict seepage of water and the intrusion of air.

The "Wood Grained Pet Casket" offers an affordable, yet traditional way to lay a pet to rest. The look of a natural wood grain finish with the strength of polyurethane these caskets provide a durable, solid, and naturally air tight and water resistant enclosure, able to withstand pressure exceeding 360 pounds per square inch.

The "Wood Grained Pet Caskets" are available in a variety of sizes, three finishes and includes a soft flocked lining. A more formal interior, lovingly hand-sewn in fine crepe fabric and trimmed in lace, is available as an accessory.

The "Imperial Pet Caskets" are made from advanced composite technology which produces high quality caskets that are durable, strong, environmentally friendly and provide the ultimate in protection at an affordable price.

Seamless construction creates a leak-proof enclosure and the advanced composites high-impact material has a longer life than metal or wood because it is impervious to the elements. Our patented caskets have been successfully load-tested at 1200 pounds.

The "Imperial Pet Caskets" are colored throughout so they won't fade or tarnish. Traditional accessories and beautiful interiors enhance these elegant caskets.
